NOTICE. Given the enormous concern over anthrax, we will be happy to supply all of our adult patients with a five day 'starter pack' of Cipro or doxycycline. Have the pharmacy call and we will approve the prescription. This is to be kept in the medicine cabinet in case of emergency. **You only need to start this if THE AUTHORITIES** deem you are in an "at-risk" situation. There are no vaccines for anthrax or smallpox at this time, but we are encouraging the **flu vaccine**, which is available now.

You can check this page on our website to determine whether or not we can see you at the scheduled time. [Click here for more info.](#)

We attempt to run on time.

We value our patients' time, but given the need to schedule efficiently in a managed care environment, and emergencies, unexpected events, travel delays, weather conditions, scheduling errors, etc., there are inevitably inefficiencies.
